ABAJA Security Operation Services

Our competitiveness stems from our extensive field experience, capacity of reaction and adaptation, streamlined management and communication structure, human resources pool, international and local staff, as well as local competence, partnerships and training. ABAJA Security services proposes a full range of security solutions.

Embedded Site Supervisors

It is our policy to provide a service of a quality that meets the initial and continuing needs of our customers. Site supervisors and security staff are fully trained, vetted, & uniformed. This division pays site visit to post to ensure that guards are on duty and properly dressed and outfitted for the job, because security personnel generally work long and tedious hours, so it performs sudden day and night site visit to ensure that our guards are executing their duties professionally. The maintenance of round the clock supervision at irregular intervals is the soul responsibility of this division's activities to promote alertness. This is a 24 hour-line function responsibility from the top. All security personnel on duty are expected to report hourly to the Central Control Office through their mobile radios, telephones and cellphones.

Training

ABAJA Security Services being the front runners in today's demanding Security Industry and takes great pride in the training and development under taken by all its personnel. ABAJA Security Services has a policy where possible to promote from within the company, we insure that all staff are given the tools to carry out any task for the most demanding job. Course content includes health and safety training, first aid awareness, fire awareness, staff development, and security training.

Crowd Management

Our experienced management and support services team will assist you with any event planning and preparation and, if required, will attend any pre-event safety meetings on your behalf. Safety is always of paramount concern for events and we are committed to good health and safety working practices. Our experienced staffs are expert in handling the requirements of major organizations involved in public events and exhibitions.

- | Royal & Ceremonial Events
- | Conferences and Meetings
- | VIP Site Visits
- | Exhibitions

Security Aids

- | Whistles
- | Uniform | Vehicles
- | Metal detectors/ X-Ray
- | Base Radio Sets
- | Mobile Radios

Embedded Site Manager

ABAJA security managers are recruited based on their experience on the field and follow an in-house training and selection to guarantee best standards and service to the client. Our security managers are trained to adapt and develop the security culture of the client according to the client specific standards (if any) or will help the client to develop their own standards, procedures and assist in the implementation in line with the duty of care, and balancing costs and risks. Through outsourcing security management the administrative issues are solved, the position can be covered without interruption relying on ABAJA to provide replacement or back to back security managers. From deploying the security manager within your company (upgrading your company's protection based on industry best standards, identifying cost-saving opportunities) to deploying field security managers on dedicated projects (preparing regular risk assessment, managing site-specific emergency responses, ensuring all relevant SOPs are updated, conducting regular trainings) we can develop very cost effective model that will assist your operations and guarantee due diligence.

Monitoring Personnel and Assets 24/7

Our Monitoring Emergency Response Centers are staffed 24 hours a day, 365 days a year, with highly trained security professionals who follow streamlined standard operating procedures to ensure efficient and effective service delivery. Apart from the standard Fire, Intruder and event monitoring with emergency services, our sites are fully equipped for the remote monitoring of clients CCTV and Video surveillance systems (analog/hybrid/IP), and rebuild/upgrade such systems if needed. We also have all necessary equipment and experience provide various Location Based Services (Lone Worker, Vehicle/Asset tracking, Geo-fencing and monitoring etc.) with Proactive and/or Reactive responses on trigger events, depending on the protocol agreed with the client.

ABAJA POLICY Statements

Health and Safety Policy

ABAJA Security Systems policy is to give primary importance to the health and safety of its employees. This considered to be a management responsibility equal to that of any other function. As well as recognizing in order to achieve and maintain the high standard required, The management as well as the staff must be aware and accept their respective responsibilities.

ABAJA Security well through its organizational arrangements, take all practicable steps to ensure the health and safety at work of its employees, and all persons likely to be affected by its activities, including clients, subcontractors and where appropriate, the public, and will provided the following:

- | Safe & Healthy working environment
- | Safe appliances suitable to the task intended and a safe place of work.
- | Safe plan and equipment suitable to the task intended

- | Adequate clean, safe and healthy accommodation.
- | Adequate clean and hygienic catering facilities.

Quality Management Policy

The objective of ABAJA Security management is always to provide a first-class quality service to all our clients. It is company policy to establish and maintain effective quality management system. Our goal is to be the first choice of our clients and employees by getting it right on time, every time. To promote uniformity of work method throughout, irrespective of project organisation, certain procedures fundamental to the company's activities are always implemented without significant deviation. It is the responsibility of the company management to ensure that these procedures are implemented consistently on all projects and regularly reviewed to reflect current client and company requirements.

Our success will be built on our absolute dedication to the satisfaction of our customers through constant innovation, the talents of our people and the quality of our work.

We will achieve this by:

- | Putting the needs of our customers first and meeting it honestly.
- | Demonstrating leadership.
- | Supplying personnel with the skills appropriate to the task.
- | Supplying tools, plant and equipment appropriate to the task.
- | Valuing our people
- | Striving for excellence

Constant improvement is our aim and our regular procedures reviews will take into accounts suggestions made by our clients and employees on ways to improve the quality of our services by using state of the art technology.

Our Company has received the **ISO 9001:2015 /OHSAS 18001:2007** Certification in the year 2015.. We shall always apply the highest standards of integrity and responsibility in our activities. Our quality management system has been operated in accordance with ISO 9001-2015

Quality Management Policy

ABAJA Security Group believes in continuously creating and developing our unique strengths, as business and individuals as well.

ABAJA Security Group. management, at all levels, recognise the important contribution which training makes to the company's continuing profitability.

The person designated as the company training officer is accountable to the General Manager for training and responsible for setting an annual assessment of organisational training needs, as well as advising and assisting all managers on training matters and providing the necessary training services.

We will adopt an open and consultative approach to determining and providing training needs.

Objectives of the training are the following:

- | To develop and communicate to all employees.
- | Understanding the employees contribution with their direct involvement in the organization to make a successful and profitable to its shareholders.
- | To continuously develop the effectiveness of our employees by ensuring they have the knowledge to do their own job to the best of their abilities and to realise their personal career goals and ambitions by developing their full potential.
- | To maximise the effectiveness of individuals, groups and the organisation to realise company objectives in achieving efficiency, profitability and continuing reputation for excellence amongst our customers and employees.

Objectives of the training are the following:

- | Implement a training plan which is relevant to the needs of the Company and the employees as well.
- | Enable all employees to gain sufficient knowledge to do their job in an effective way and to do it right the first time.
- | Identify the company and individual training needs using feedback from Employee Appraisals, Employee Surveys, the "Continuous Improvement Programme" and Company strategies and plans.
- | Prioritise training on the basis of individual, Company needs and available funding from the training budget.
- | In-house training, offsite, and on-the-job training involving apprenticeship schemes, training organisations, company employees and management.
- | Ensure appropriate cross-training at the Supervisor and Operator level to enable effort to be directed into the area where it is needed most.
- | Provide induction training to newcomers to ensure an appreciation of the organisation and early integration with the company, the management and the employees.

- | Participate in Saudi Arabian Government training initiatives such as work experience, training programmes and craft apprenticeships, providing training to meet the needs of the company and its social responsibilities in the community.
- | Encourage development of computing skills and the use of new technology at all levels, through appropriate courses and training.
- | Monitor and evaluate the effectiveness of training using self-assessment, performance appraisal and assessments of future potential within the company's management structure.
- | Maintaining training records for each employee identifying training needs, qualification attained, courses and programmes attended, and performance.
- | Recognise skills attained by employees and account for these in assessments and reviews for further development.
